

Software Project Management and Quality Assurance

Practical – 5

Exploring Testing Management from the Software Project Management Software:

TestMo:

The screenshot displays the TestMo web application interface. The top navigation bar includes 'testmo', 'Projects', 'My work', 'Admin', and a 'Trial (20 days left)' badge. The left sidebar shows a navigation menu with sections: PROJECT (Overview, Documentation, Milestones), MANAGEMENT (Repository, Runs & results, Sessions), and AUTOMATION (Sources, Runs & results). The main content area is titled 'Repository' and shows a folder structure with 'FrontEnd' and 'BackEnd'. The 'FrontEnd' folder is selected, displaying a list of test cases with columns for checkboxes, case names, and priorities.

Case	Priority
<input type="checkbox"/> Test Login	High
<input type="checkbox"/> Test Registration	Normal
<input type="checkbox"/> Test Database	High
<input type="checkbox"/> Test Buying	Normal
<input type="checkbox"/> Test Selling	Normal
<input type="checkbox"/> Test Payment	High
<input type="checkbox"/> Test Add to Cart	Normal
<input type="checkbox"/> Test Save the Product	Low

Below the repository view, the 'Add case' modal is open. It contains fields for 'Name' (Case name), 'Configurations' (with a note: 'Optionally limit the configurations this case applies to.'), 'Description' (with a rich text editor), and 'Expected' (with a rich text editor). On the right side of the modal, there are dropdowns for 'Template' (Case (text)), 'State' (Active), 'Estimate', 'Issues' (with an 'Add' link), 'Tags' (with a note: 'You can add tags to filter cases.'), 'Priority' (Normal), and an 'Attachments' section with a 'Choose files or screenshot or drag/paste here' button. At the bottom of the modal, there is a checkbox 'Add another case' and 'Add case' and 'Cancel' buttons.
